

# City of Minot

## Tree Removal Policy

In the future, please separate all useable wood waste (logs and stumps) from the branches and brush. Due to the extensive pressure by the State of North Dakota to reduce wood waste from entering our landfills, we strongly encourage city residents to allow for useable firewood to be utilized and collected by the citizens.

Place all branches facing the same direction on the berm with the cut ends toward the curb, with logs, and stumps placed to one side for ease of pickup.

We do appreciate any and all cooperation from you the citizen to be part of our solution.
